

## **General Manager Report of Activities for September/October 2019**

**October 31, 2019**

Project	Progress This Period
Building Permits	We have had 39 since the beginning of October 2019.
Annexation – Sports, Entertainment and Industrial	Based on rough numbers it is clear that the McGowan Pkwy route for the sewer is the most feasible. The application has been submitted to LAFCO for annexation. LAFCO is having the official hearing for the annexation Monday evening (11/4) at 6:00 PM.
Casino	The Hard Rock casino/hotel is open as of today. We are starting the true-up process.
Ad-Hoc Committees	Provided staff support to several OPUD Ad-Hoc committees.
IRWMP Grants	We continue to attend the meetings and the group adopted the plan (Integrated Regional Water Management Plan) which will be submitted to DWR. Once approved by DWR, our Board will need to adopt the plan to receive grant funding from the state. We will have a few projects we'd like to submit: steel main replacement, water meter project and intertie with Linda County Water. The consultant will meet with OPUD staff to talk about grant opportunities soon. The state funding for this grant for our area has decreased significantly. We may have to phase the steel main replacement project. We have been asked to provide a \$1M match for the grant and are looking at ways to fund the match.
Parks Grants	Grant applications were submitted on time and now we wait until early next year to find out if we will be awarded a grant.
OPUD Pool	Pool season was another success with record attendance. I will be working with First 5 late this year to request additional grant funding.
Community Park	One of the grants we applied for is for this park. The preparation of the RFP for design has started with our parks consultant.
