APPLICATION FOR SERVICE

Per Ordinance 210 (12/2010), Landowners are responsible for all accounts. Tenants may sign-in as the customer of record, with the Landowner's consent. The Landowner must have completed and have on file a "Landowner Guaranty and Consent" for each new tenant before the service will be placed in the Tenant's name. If the Tenant signs in for service, the Landowner may request a copy of the monthly bill. Landowner remains responsible for the account, including any delinquent charges and penalties due from Tenant. A separate application is required for each service address and a new application is required from each successive Tenant. Landowners are not required to execute a new application, but a new Landowner Guaranty and Consent is required for each successive Tenant who will be a customer of record.

All new accounts or transfers of service will be charged a **non-refundable \$25.00 Service Fee**; this charge appears on the first month's bill. Documents establishing proof of ownership, such as, a valid purchase agreement and a valid picture ID, must be presented to our office (in person or by notarized statement) **within 10 days** or service may be discontinued. If a tenant is signing into service as the customer of record, a completed Landowner Guaranty and Consent must be on file.

Who is authorized to sign in for service?

On October 21, 2010 the Board of Directors adopted Ordinance 210, effective December 1, 2010 to establish that only a Landowner may sign into service and that application for deferred payment of delinquencies by an existing Tenant account be made only with the knowledge of the Landowner. Courtesy copies of the billing may be sent to the Tenant at the Landowner's request (**AT THE COST OF \$1.75 PER BILL COPY**) however, the Landowner is the customer of record and is the only party who may make changes on the account. **Exception:** When the Landowner completes the Landowner's Guaranty & Consent a tenant may become the customer of record and will remain the customer of record as long as payments are made when due.

NOTE: Be aware that if you are not present at the time water service is restored, you should take precautionary measures to prevent water damage to your property including turning off the water valve connected to the residence (commonly called the "house valve"). At no time will an OPUD field service technician turn service on or off from any point other than our service connection located adjacent to the property (commonly called the "street valve").
