RE: Request for Funding for Annexation and Study Costs for Sports, Entertainment and Industrial Zones in Yuba County

Robert,

A unique opportunity exists in Southeastern Yuba County. The opportunity is that of the development of the areas known as the "sports and entertainment zone" and the "Industrial zone" bringing the subsequent commercial and industrial growth, complete with associated jobs, to Yuba County. Already located in this area is the Hard Rock – Fire Mountain Casino Resort which essentially will deliver over 1,000 jobs and unprecedented economic growth to Yuba County. This is in addition to the Toyota Amphitheater.

This area is in Olivehurst Public Utility District's Sphere of Influence for water, wastewater and parks and the District wishes to annex the area and provide appropriate services. The estimated cost of annexation is \$47,000. Additionally, a focused engineering study identifying the most efficient route for wastewater collections and detailed constructions cost estimates for the installation of the infrastructure is needed at a cost of \$50,000.

The Olivehurst Public Utility District is requesting funding from Yuba County for the annexation costs and the focused study for the wastewater collections route and detailed cost analysis. The total amount we are requesting is \$97,000. Our partnership with Yuba County has never been stronger and we are excited to work together to achieve the Board's General Plan vision by providing the critical infrastructure needed to grow economically.

Respectfully Submitted,

A handwritten signature in blue ink that reads "John C. Tillotson".

John C. Tillotson, P.E.
