FLUID CONTROL FUNDAMENTALS PUMP TRAINING COURSE & ENERGY EFFICIENCY WORKSHOP

Classes are held at the CRWA Training Center in Sacramento.

The CRWA Academy of Water Education (AWE) is the on-site training center of the California Rural Water Association. Our instructors have spent years in the field. These experienced men and women know the ins and outs of being an operator and bring that practical knowledge to the classroom. Courses are taught in both classroom and workshop settings at our training center in Sacramento. AWE workshops allow participants to learn hands-on skills. Our approach is unique and takes the learning experience from theoretical to practical.

SCHEDULE: Sign-in 8:30 – 9am, Morning Session 9am-12pm, Lunch 12-1pm (on your own), Afternoon Session 1-3pm
THIS COURSE IS WORTH 5 WATER CONTACT HOURS AND 5 WASTEWATER CONTACT HOURS.

Morning Session: Basic pump hydraulics, centrifugal pump sizing, motor design, construction and operation, wire sizing and controls, and system troubleshooting Q&A. Variable Frequency Drives (VFD) will be discussed and why they are becoming more popular with utilities. Cavitation and water hammer will also be discussed.

Afternoon Session: Information on services, pump tests, education, tech support, and how pump tests are run. Energy savings incentives will also be highlighted, and who qualifies for these services.

TUITION ASSISTANCE: The Expense Reimbursement Grant (ERG) allows individuals associated with small water systems to have their tuition and mileage reimbursed. For more information, please contact CPS at (866) 867-3594 or visit www.cps.ca.gov/tlc/sws/. If you qualify for this program and already have an ERG number, you may list it below in lieu of payment for this course.*

INSTRUCTORS: Rick Hicklin, Technical Training Manager, Pentair Water, has close to thirty years experience in the groundwater industry working for the major manufacturers of pumps, motors, and controls. His positions have included sales, marketing, and technical training for all products related to the groundwater industry. Rick has worked for Grundfos Pumps, Red Jacket Pumps, Hydromatic Pumps, and Franklin Electric, and is now with Pentair Water. Nancy Comstock, retired for PG&E after more than 20 years, is now a consultant for PG&E in the field of Energy Efficiency.

Please select a class session.
