

# Olivehurst Public Utility District

## Agenda Item Staff Report

Meeting Date: 02/05/2020

### Item description/summary:

**Receive an update on the Yuba Sub-Basins Water Management Plan Adopted by the Yuba Water Agency.**

Over the past few years, OPUD has been a stakeholder in the Groundwater Sustainability Committee, working with 16 other local districts and stakeholders to advise the Yuba Water Agency in its process of creating a groundwater sustainability plan for the Yuba Sub-Basins as required by DWR. With the input of all local stakeholders, YWA's consultants created a plan to manage the use of groundwater in a way that keeps the sub basins sustainable and avoids undesirable results. This plan was adopted by YWA on January 21<sup>st</sup> and is finished two years ahead of the State's Deadline. Meetings will continue infrequently to report conditions and take management actions if necessary.
